ABOUT ME

Hello, I'm Saroj Chaudhary, a dedicated Geomatics Engineering student with a passion for travel and exploration. I'm excited about the opportunity to bring my skills and experiences to your team and contribute to innovative projects. Let's connect and achieve great things together!

EDUCATION

Janashram Technical Collage Tulsipur, Dang | 2022 – 2024

Diploma In Geomatics Engineering

Completed a 3-year Diploma in Geomatics Engineering at Janashram Technical College, Tulsipur Dang.

Janashram Secondary School Tulsipur-4 , Dang | 2023– 2024

Plus 2 in Management

I completed my 12th grade from Shree Janashram Secondary School, Tulsipur, Dang with a 2.61 GPA.

WORK EXPERIENCE

Naxa Pvt. Ltd | 2024-2025

GIS INTERN

- Monitored and verified house numbering data for the Janakpur Metric Addressing System.
- Performed quality checks on field data to ensure accuracy and consistency in the GIS database.

Naxa Pvt. Ltd | 2025-2026

GIS Associate

- Map4Safe Travel (Realitymaps): Worked on mapping trekking routes all over Nepal. I was responsible for collecting trail data and digitizing it to create accurate maps for international tourists.
- Field Work (Khumbupasang Lhamu): Travelled to Khumbupasang Lhamu Rural Municipality to conduct a field verification program. I worked with local people and stakeholders to cross-check and finalize the trekking trails on the ground.
- Municipal Data Management (Tokha): Handled the DMAPS system for Tokha Municipality, where I updated the house numbering database and ensured the field data was correctly entered into the system.
- Map Making: Created different types of maps based on project needs, such as:
 - Study Area & Location Maps for reports and presentations.
 - Thematic Maps to show specific data like population or trekking density.
 - Topographic & Route Maps used mainly for trail navigation and field reference.

WORK EXPERIENCE

Tokha Municipality | 2026-2026

GIS Operator

- Managed and maintained datasets with a focus on accuracy and organization
- Conducted fieldwork and communicated with local stakeholders for data collection and validation
- Detected and helped resolve system bugs to improve workflow efficiency Cleaned and updated
- Spatial data to ensure reliability and consistency

INTERESTS

- E-Governance and Technology for Public Service Improvement
- Digital Data Management and System Development
- Drone-Based Survey and Mapping
- Remote Sensing and Geospatial Analysis
- Field Survey, Data Collection, and Ground Verification

SKILLS

- GIS Analysis and Spatial Data Processing
- Mapping and Cartographic Design
- Data Management and Record Keeping
- Field Survey, Data Collection, and Ground Verification
- Spreadsheet Analysis (Excel / Google Sheets)
- Document Digitization and Digital Filing
- Basic System Troubleshooting (Bug Identification)
- Attention to Detail and Accuracy
- Communication and Field Coordination

TOOLS & TECHNOLOGIES

- ArcGIS
- QGIS
- Cartography & Mapping
- Surveying
- Python
- React
- JavaScript
